ABOUT ME

AI & Data Science undergraduate with a strong foundation in machine learning, data analytics, and backend development. Passionate about building AI-driven solutions and applying data science techniques to real-world problems. Experienced in developing and deploying projects using modern technologies with a focus on performance and scalability.

PROJECTS

VisionGuard Pro – AI vs Real Image Detection System

Jan 2026 - Feb 2026

- Built model to classify real vs AI-generated images (~95% accuracy)
- Used EfficientNet-B0 with transfer learning
- Developed Streamlit app for real-time prediction
- Deployed via Streamlit Cloud + GitHub

Impact of AI Tools on Students' Academic Performance

Feb 2026

- Performed data analysis using R (cleaning, visualization, regression)
- Identified impact of AI tools on student outcomes

Backend Framework Application (Spring Boot Project)

Dec 2025

- Built REST APIs using Spring Boot, Java, MySQL
- Implemented layered architecture + JWT authentication

SKILLS

- Programming: Python, Java, C++, C, SQL
- AI/ML: EfficientNet, Transfer Learning, SVM, Decision Trees
- Data Science: Data Analysis, Visualization, Regression (R)
- Web & Backend: HTML, CSS, JavaScript, Spring Boot
- Databases: MySQL, MongoDB
- Tools: VS Code, Git

EDUCATION

B.Tech – Artificial Intelligence and Data Science

Sri Krishna College of Engineering and Technology, Coimbatore

2024 – 2028 (Pursuing)

CGPA: 8.59

CERTIFICATIONS

- Machine Learning Fundamentals – Infosys Springboard
- Federated Learning with TensorFlow – Infosys Springboard
- Graph Neural Networks (GNNs) – Infosys Springboard
- Python Programming Fundamentals – Coursera (Microsoft)
- Data Structures and Algorithms – Infosys
- Java 11 Essentials – Infosys
- Data Warehouse Essentials – Infosys
- Design Thinking – NPTEL (Elite)

ACHIEVEMENTS

- Presented paper on Applications of AI in Marine and Biotechnology
- Participated in AI Arena Hackathon at Sri Eshwar College of Technology
- Built AI Image Detection System during PSG iTech Hackathon
